

## FAQs

### What is E-loo?

E-loo is a toilet seat containing two hidden nozzles which produce a jet of water for cleaning private body parts. The water can be regulated for both temperature and flow. The first nozzle is designed for cleaning the posterior area and is useful for all members of the family, while the second nozzle is designed for feminine hygiene. E-loo is made from a germ-resistant material for maximum hygiene and provides a comfortable seat which can be heated to different temperature settings.

### Is it difficult to install E-loo?

No, E-loo is easy to install and usually takes less than an hour.

### Do I need an electrical socket?

Yes, an earthed socket is necessary.

### Can E-loo be used by children, the elderly or by people with disabilities?

Absolutely. E-loo is particularly useful for the elderly or for people with disabilities because it is so easy to use. E-loo can also be a great help for parents with young children who are not yet able to clean themselves. Kids love E-loo!

### Is E-loo hygienic?

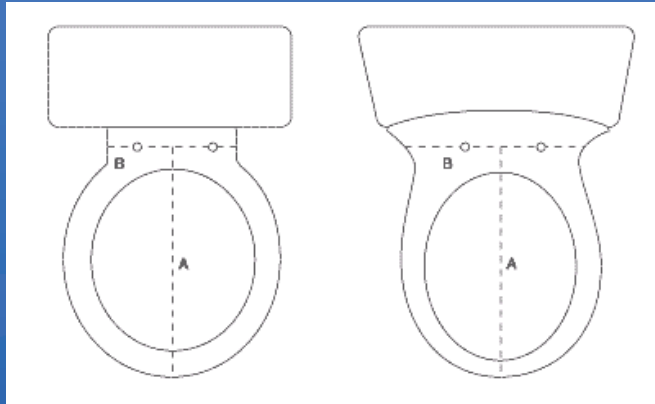

Yes, the nozzles which provide personal hygiene are automatically cleaned before and after each use.

### Why should I buy E-loo?

There are many advantages:

- Eloo is a fundamental accessory in bathrooms where a traditional bidet cannot be installed due to a lack of space. Eloo makes designing bathrooms easier as it helps to maximise the use of the available space.
- Eloo is delicate and hygienic. Personal hygiene for young children, the elderly, for people with disabilities or generally less mobile is made simpler and easier.
- If used regularly, Eloo can help to relieve inflammatory conditions typically found in women, such as cystitis and yeast infections, as well as those due to haemorrhoids. The beneficial SPA jet provides adequate stimulus to increase blood circulation, while the warm air used for drying reduces the need for toilet paper, thereby minimizing its irritating effect on the skin.
- Eloo is ecological: in fact it helps to reduce the consumption of toilet paper by 80-90% and cuts back considerably

## Dimensions

16.5 - 17.5 inches/42-44 cm = Round Shape  
17.5 - 19. inches/44-48 cm = Elongated Shape

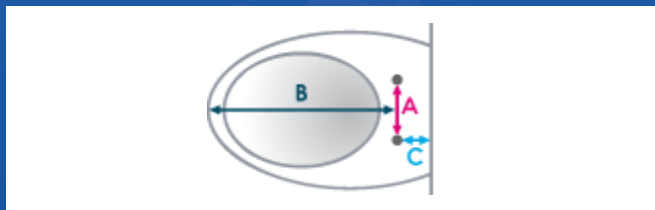

### LINE SURFACE MUST BE FLAT

Not less than 5-1/2 inches/140 mm, E-LOO bidet will fit your toilet model

Not greater than 8 inches/200 mm, E-LOO bidet will not fit.

### Dimensions

Your toilet bowl – **well mounted or traditional** – can fit with the bidet seat if it is plain and round/oval and if dimensions A, B and C match following :

- $140 \leq A \leq 200\text{mm}$
- $420 \leq B < 440\text{mm}$  select the standard model
- $440 \leq B \leq 480\text{mm}$  select the elongated model
- $C \geq 40\text{mm}$

**The Arrow E-LOO is designed to fit standard U.K. and European toilet dimensions, both round and elongated. And it is designed to fit better because the water tank is mounted behind the seat, not on the side like other models sold in the U.K. and Europe. Installation is in four simple and straightforward steps.**
